REQUEST TO CORRECT FILING RECEIPT

Dear Sir:

Attached is a copy of the filing receipt regarding the above-identified patent application.

Applicants respectfully request that a corrected filing receipt be issued to correct the following errors.

The filing receipt lists the second Applicant as "Morice Hoogiejang, Leiderdorp, NETHERLANDS" The second Applicant's name is misspelled and should read "Morice Hoogteijling, Leiderdorp, NETHERLANDS."

Also enclosed is an Application Data Sheet to support the request.

The filing receipt indicates that the Power of Attorney in this application was granted to "The patent practitioners associated with Customer Number 21917." This is incorrect. Attached is a copy of the Power of Attorney document that was filed with this application on November 13, 2003. The attached Power of Attorney document is the only Power of Attorney document that has ever been filed in this application and Applicants respectfully request that the filing receipt be corrected to indicate the registered practitioners listed in that document who are the only persons to whom a power of attorney has been granted in this application.

As background, on December 23, 2003 an erroneous "Change of Correspondence Address" document was filed in this application by Leah C. Saar of McHale & Slavin, P.A. which indicated that the correspondence address for this application was changed to the correspondence address associated with customer number 21917. Despite the fact that neither Ms. Saar nor anyone else associated with McHale & Slavin had a power of attorney to act in this application, the erroneous Change of Correspondence Address was entered.

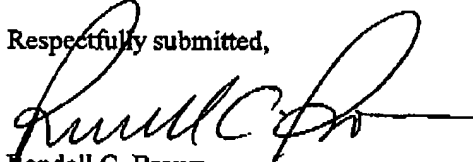

Applicants' undersigned representative filed a "Change of Correspondence Address" on June 24, 2005 in order to correct this error and to have correspondence sent to Mr. Robert A. Kent of Halliburton Services, Inc. While the erroneous Change of Correspondence Address document did not indicate that the Power of Attorney was granted to the patent practitioners associated with Customer Number 21917, the records of this application for some reason were changed to reflect this incorrect information. As noted above, the only Power of Attorney document that has ever been filed in connection with this application is attached.

For the foregoing reasons, it is respectfully requested that a corrected Filing Receipt be issued that indicates that the Power of Attorney in this application is granted to the individuals listed on the attached copy of the only Power of Attorney document that has ever been filed in this application.

Correction of these errors is respectfully requested.

The Commissioner is hereby authorized to charge any fees or to credit any overpayments to Deposit Account No. 08-1394.

Respectfully submitted,

Randall C. Brown

Formate based liquid gel concentrates

Preliminary Class
507**PROTECTING YOUR INVENTION OUTSIDE THE UNITED STATES**

Since the rights granted by a U.S. patent extend only throughout the territory of the United States and have no effect in a foreign country, an inventor who wishes patent protection in another country must apply for a patent in a specific country or in regional patent offices. Applicants may wish to consider the filing of an international application under the Patent Cooperation Treaty (PCT). An international (PCT) application generally has the same effect as a regular national patent application in each PCT-member country. The PCT process simplifies the filing of patent applications on the same invention in member countries, but does not result in a grant of "an international patent" and does not eliminate the need of applicants to file additional documents and fees in countries where patent protection is desired.

Almost every country has its own patent law, and a person desiring a patent in a particular country must make an application for patent in that country in accordance with its particular laws. Since the laws of many countries differ in various respects from the patent law of the United States, applicants are advised to seek guidance from specific foreign countries to ensure that patent rights are not lost prematurely.

Applicants also are advised that in the case of inventions made in the United States, the Director of the USPTO must issue a license before applicants can apply for a patent in a foreign country. The filing of a U.S. patent application serves as a request for a foreign filing license. The application's filing receipt contains further information and guidance as to the status of applicant's license for foreign filing.

Applicants may wish to consult the USPTO booklet, "General Information Concerning Patents" (specifically, the section entitled "Treaties and Foreign Patents") for more information on timeframes and deadlines for filing foreign patent applications. The guide is available either by contacting the USPTO Contact Center at 800-786-9199, or it can be viewed on the USPTO website at <http://www.uspto.gov/web/offices/pac/doc/general/index.html>.

LICENSE FOR FOREIGN FILING UNDER
Title 35, United States Code, Section 184
Title 37, Code of Federal Regulations, 5.11 & 5.15

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls.

Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (i)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).
